

# LAKSHMAN KISAN BITLE

## Technical Support Executive 2

📞 (+91) 9960348441    ✉ lakshbitle007@gmail.com    📍 Pune, India

### SUMMARY

I am a Technical Support Executive with over 4 years of experience in fintech, specializing in payment integrations and client support. My expertise encompasses API testing, SQL, and fraud risk assessments. I excel in providing technical solutions and ensuring client satisfaction through effective communication and support. I am passionate about leveraging technology to enhance operational efficiency

### EXPERIENCE

#### Technical Support Executive 2 PLEXOMIC INFOSYSTEM PVT LTD

📅 09/2025 - 01/2026    📍 Pune, India

Focused on digital banking and payment operations with an emphasis on compliance and transaction management

- Managed digital banking operations and FinTech payment processing
- Monitored transactions for fraud indicators and escalated suspicious activities
- Performed AML & KYC compliance checks
- Handled transaction reconciliation for daily settlements identifying discrepancies
- Provided customer support for banking and payment-related queries
- Prepared MIS reports using MS Excel for operational tracking
- Highlight your accomplishments, using numbers if possible.
- Managed dispute resolution and chargeback handling

#### Technical Support Executive Infibeam Avenues (IAL)

📅 10/2023 - 05/2025    📍 Pune, India

Involved in technical support, API integration, and payment processing operations

- Resolved complex API integration issues and conducted SQL query analysis
- Validated RESTful APIs using Postman for testing
- Analyzed system logs to determine payment failures and mismatches
- Managed integration-related tickets ensuring SLA compliance
- Provided multi-channel client support via Zendesk and other platforms
- Trained new team members on fintech products and support workflows

#### Technical Pre-sales executive Techmind Infrasol Pvt Ltd

📅 01/2022 - 09/2023    📍 Pune, India

Responsible for technical pre-sales support and product presentations based on client needs

- Understood client requirements to provide technical solutions
- Conducted product presentations, demos, and POCs
- Worked closely with the sales team during client meetings
- Prepared technical proposals and RFP/RFQ responses
- Provided pre-sales support for preonboarded clients.
- Assisted clients with technical queries related to integration
