+91-7208738446 | Goregaon(w), Mumbai | sanjogpawar31@gmail.com | <https://sanjogpawar.github.io/Portfolio/> | <https://github.com/sanjogpawar> | <https://www.linkedin.com/in/sanjog-pawar-443ba7160/>

PROFESSIONAL SUMMERY

Experienced Software Testing professional with strong expertise in manual testing, defect tracking, UI, functional, and regression testing. Proficient in tools and technologies such as Jira, API testing, and automation frameworks including Selenium (Java) and TestNG to efficiently identify, analyze, and resolve software issues. Possess solid domain experience in Banking, Payment Gateway, and Insurance sectors, with a deep understanding of both functional workflows and technical implementations.

WORK EXPERIENCE

Lyra Network

Technical Support Engineer

Mumbai, India

Jan-2025 - Sept-2025

- Monitored networks, servers, databases, and applications within **Banking, Payment Gateway, and Insurance domains** to ensure optimal system performance and proactive issue detection, successfully resolving 100+ incidents and maintaining uninterrupted business operations.
- Troubleshoot system, network, and database-related issues across **critical financial applications**, restoring services within 80% of defined SLAs and minimizing downtime impact for 100+ end users.
- Escalated and coordinated with cross-functional teams to resolve complex incidents, while preparing detailed incident reports using Linux, Grafana, Centreon, and MobaXterm, significantly improving resolution efficiency and reducing turnaround time.

Vervali System

Software Testing

Vasai, India

Jan-2022 - July-2022

- Enhanced the reliability of Urban Ledger (Payment Application) across **Banking, Payment Gateway, and Insurance domains** by executing comprehensive manual testing, identifying and reporting 100+ defects, and ensuring improved product quality, transaction accuracy, and policy data integrity.
- Performed API testing and maintained 100+ test cases for critical financial and insurance workflows, including transactions, claims, and policy processing. Documented and managed 100+ defects in Jira, collaborating closely with team leads and developers to ensure timely resolution and seamless application performance across **Banking, Payment, and Insurance systems**.
- Actively resolved and validated defects, significantly improving system stability, data accuracy, and overall application performance, achieving up to 99% reliability **in high-impact financial and insurance applications**.

J Kumar Infraproject pvt. Ltd.

CERTIFICATION

Udemy Platform (Online)
ISTQB Foundation v2018 Course (ISTQB Officially Accredited)

Mumbai, India
Dec-2025 – Jan-2026

Udemy Platform (Online)
Selenium Automation Testing with Java + AI

Mumbai, India
Dec-2024 – Present

DVOC Institute
Full Stack Developer in Advance Java

Mumbai, India
Sept-2022 – May-2023

EDUCATION

Master of Computer Application
Viva Institute of Technology (University of Mumbai)

Virar, India
Oct-2020 – July-2022

Bachelor of Computer Application
KiranDevi Saraf Institute of Complete Learning (Tilak Maharashtra Vidyapeeth, Pune)

Mumbai, India
Aug-2014 – May-2017

PROJECT

Urban Ledger

Jan-2022 – July-2022

- It is a digital ledger application that enables businesses to track transactions, manage customer dues, and send payment reminders.
- Identified and reported issues across modules, documented them clearly in Excel and Jira, coordinated xes with developers, and re-tested to ensure smooth functionality on both mobile and web platforms.
- Tools: Jira, Excel, Postman, Eclipse, Visual Studio Code, Flutter, ReactJS, NodeJS, MongoDB, Slack.
- Delivered stable, bug-free applications by implementing targeted functionality enhancements, reducing errors, and improving user experience.

ACHIEVEMENTS

- Achieved 1st place in essay competition during 8th standard.
- Secured 1st place in group dance competition during 10th standard.
- Secured 2nd place in good-handwriting competition during 4th standard.
