SUMMARY:

A dedicated and highly organized Software Test Engineer, eager to join a reputable company to further develop my expertise in software testing and expand my technical skills. Committed to delivering high-quality work with a strong work ethic and keen attention to detail, I aim to contribute to the company's success while continuously advancing my own knowledge and growth in the field.

SOFTWARE SKILLS:

- Excellent knowledge of Manual Testing.
- Proficient Knowledge of Test Case Design Techniques, SDLC, STLC, and Defect Life Cycle.
- Experienced in Logging Defects and Tracking Defects in Mantis BT & JIRA.
- Clear understanding of Agile Methodology - SDLC phases
- Skilled in API Testing and Validation, ensuring the integrity and reliability of application interfaces.
- Solid grasp of Java and Selenium for Automation testing, including writing reusable test scripts to boost efficiency.

TECHNICAL SKILLS:

- Test Management Tools: Excel, Cucumber TestRail & Postman
- Defect Tracking Tool: JIRA, Monday.com & Mantis BT
- Programming Language: JAVA
- IDE: MySQL Workbench, Eclipse.

EXPERIENCE:

Software Test Engineer | TESTRIQ QA LAB | May 2024 – Present

- Skilled in preparing and executing manual test cases across multiple stages of the testing lifecycle.
- Performed functional, integration, and system testing for web-based applications.
- Developed and executed automation test scripts using Java and Selenium, with a focus on reusability and efficiency.
- Actively participated in client meetings and project discussions to gather requirements and clarify testing objectives.
- Logged and tracked bugs using tools such as Mantis, JIRA, Monday.com, and MS Excel.
- Performed cross-browser compatibility testing across various OS-browser combinations to ensure a consistent user experience.
- Well-versed in Agile methodology and experienced with sprint-based testing workflows.
